

ABOUT ECCC

The 7th European Conference on Continuous Casting (ECCC 2011) continues the tradition of the successful series of events which were organised in Florence (1990), Düsseldorf (1994), Madrid (1998), Birmingham (2002), Nice (2005) and Riccione (2008). Now Düsseldorf will again be the location of this outstanding event.

Düsseldorf, the capital of North Rhine-Westphalia, the most populated province of Germany, is also home of the Steel Institute VDEh. Düsseldorf has strong connections to the coke, iron and steel industries thanks to the adjacent Ruhr region, the traditional home to coke, iron and steel making facilities. Taking all of this into account, the ECCC 2011 is guaranteed to be an impressive gathering of experts. The ECCC is a part of the METEC InSteelCon® 2011.

SUMMARIZED PRELIMINARY TIMETABLE

27 June – 1 July 2011

Monday Early Congress registration |
Get-together

Tuesday Opening/plenary session |
Technical sessions

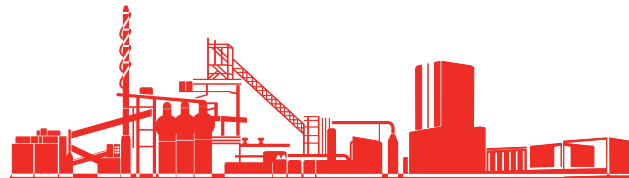

Wednesday Technical sessions |
Social event

Thursday Technical sessions

Friday Plant visits

SECOND ANNOUNCEMENT & CALL FOR PAPERS

www.ECCC2011.com

METEC TRADE FAIR & METEC InSTEELCON® 2011 — AT THE SAME PLACE AND TIME

All new developments from the world of steel, at a single time and place – that is the reach of METEC InSteelCon® 2011. It unites four international conferences under one roof: the 6th European Coke and Ironmaking Congress (ECIC), the 7th European Continuous Casting Conference (ECCC), the 4th International Conference on Modelling and Simulation of Metallurgical Processes in Steelmaking (STEELSIM) and the 1st International Conference on Energy Efficiency and CO₂ Reduction in the Steel Industry (EECRsteel).

These events take place as accompanying congresses and conferences to the leading metallurgical trade fair METEC and the trade fairs GIFA, THERMPROCESS and NEWCAST. More than 70,000 visitors are expected. All participants at the ECCC have free entrance to the 4 big trade fairs!

CALL FOR PAPERS

TOPICS

The ECCC 2011 offers you a leading platform to present a paper on one or more of the following general topics:

- Casting metallurgy
- Plant design / layout considerations
- New mould design
- Plant operation
- Process control and product quality
- Maintenance
- Mould lubrication and heat flux
- Caster instrumentation and automation
- Fluid flow and EMS actuators

Please visit www.eccc2011.com to see the complete technical focus list. You must select the technical focus which best fits your presentation.

CONFERENCE CHAIRMAN

Dr. Ralf Bruckhaus, AG der Dillinger Hüttenwerke, Germany

SCIENTIFIC PROGRAM COMMITTEE

- Ron van den Bogert, CORUS Strip Products IJmuiden, The Netherlands
- Dipl.-HTL-Ing. Werner Brandl, voestalpine Stahl Donawitz GmbH, Austria
- Jean-Luc Jacquot, Federation Francaise de L'Acier, France
- Dr.-Ing. Gerhard Kemper, Hüttenwerke Krupp Mannesmann GmbH, Germany
- Prof. Ing. Carlo Mapelli, Politecnico di Milano, Italy
- Prof. Dr.-Ing. Dieter Senk, RWTH Aachen University, Germany
- M. Sc. Ulf Sjöström, Swerea MEFOS, Sweden
- Dipl.-Ing. Adrian Stilli, ArcelorMittal Long Carbon Europe, Luxembourg

SUBMISSION OF PAPERS

All paper proposals must be submitted online. Please visit: www.eccc2011.com and go to the Call for Papers section. There you will find an easy to use online submission form. Your abstract can be a maximum of 300 words. Please note that papers will only be accepted online.

LANGUAGE

The conference language is English.

DEADLINE

Please submit your abstracts by 31 July 2010 at the very latest. All abstracts will be refereed by the scientific program committee. In the case of too many submissions, abstracts of equal quality will be accepted on a first come, first serve basis.

PAPER PROPOSAL SUBMISSION

Papers shall preferably be prepared by steelworks, universities, institutes or / and plant suppliers. Requested are contributions focusing on experience, results and state-of-the-art of CC equipment and development.

To submit an abstract, please proceed as follows:

- 1) Write your abstract (max. 300 words).
- 2) Submit your abstract online at: www.eccc2011.com > Submission of Abstracts (please completely fill out all fields).
- 3) Papers must be submitted in English.
- 4) All papers must focus on best practices.

IMPORTANT DATES

31 July 2010	Abstract submission deadline.
8 September 2010	Scientific Program Committee will evaluate submitted abstracts.
2 November 2010	We will inform you on the decision of the Scientific Program Committee. Delivery of speaker guidelines.
25 February 2011	Full paper submission deadline.
16 May 2011	PowerPoint presentation slides deadline.
27 June – 1 July 2011	METEC InSteelCon® 2011
